2. As to the request that the M27 links be tested to 2 hours and not 72 hours, the committee cannot grant such request in the absence of documents to support the presence/use of machine capable to simulate the accelerated corrosion exposure requirement. The committee still prescribes the number of hours for Metallic Link Corrosion Test as stated in the bidding documents.

3. As to the request that the test and acceptance procedures be based on the following tests: a. sampling, b. Pressure and Velocity Testing, c. Accuracy Testing, and d. Cartridge Inspection, the committee still prescribes that all Test Parameters stated in the bidding documents will all be conducted prior to acceptance.

Be guided accordingly
