

**Section VII. Technical Specifications**

**Section VII. Technical Specifications**

**Section VII. Technical Specifications**

**STATEMENT OF COMPLIANCE  
TO TECHNICAL SPECIFICATIONS**

The bidder must state in the last column opposite each parameter and required specifications either "Comply" or "Not Comply". All pages shall be properly signed. Bidders must state here either "Comply" or "Not Comply" against each of the individual parameters of each Specification stating the corresponding performance parameter of the equipment offered. Statements of "Comply" or "Not Comply" must be supported by evidence in a Bidders Bid and cross-referenced to that evidence. Evidence shall be in the form of manufacturer's un-amended sales literature, unconditional statements of specification and compliance issued by the manufacturer, samples, independent test data etc., as appropriate. A statement that is not supported by evidence or is subsequently found to be contradicted by the evidence presented will render the Bid under evaluation liable for rejection. A statement either in the Bidders statement of compliance or the supporting evidence that is found to be false either during Bid evaluation, post-qualification or the execution of the Contract may be regarded as fraudulent and render the Bidder or supplier liable for prosecution subject to the provisions of **ITB** Clause above goods manufactured by us.

**CLARIFICATION AND SETTLEMENT OF CONFLICTING  
INTERPRETATION OF THE TECHNICAL SPECIFICATIONS**

All clarifications regarding the technical specifications stipulated in this section will be clarified by the members of the Project Management Team/Technical Working Group; the Philippine Air Force F/SA/LIFT Aircraft Munitions Acquisition Project Technical Specifications will be referred to. In cases of conflicting interpretations, the nature and purpose of the equipment will be the basis of interpretation. The main basis for technical specifications and requirements is the nature and purpose of the equipment and its intended use as determined by the doctrinal application of the end-users represented herein by the Project Management Team.

**Section VII. Technical Specifications**

**Technical Specifications**

**1. CAPABILITY AND PERFORMANCE**

Item	Specifications	Comply/ Not Comply
<b>IR Flares</b>	<ul style="list-style-type: none"> <li>- Brand new MJU-7 or its equivalent variant</li> <li>- 6,400 pcs</li> <li>- Impulse cartridges included (not less than 10 years of shelf life and not less than 1 year of service life)</li> <li>- Must be certified for use with the FA-50 aircraft Countermeasure Dispenser System (CMDS) (Elbit Elisra SPS-45v5EX)</li> </ul>	
	Weight – not less than 140g	
	Dimensions – must be compatible with the FA-50 CMDS	
	Operating Temperature Range - Can be operated between -40°C and +60°C	
	Operating Humidity – not less than 95% relative humidity	
	Storage life – not less than 9 years Service life – not less than 1 year	

**2. HUMAN ENGINEERING REQUIREMENT**

Item	Specifications	Comply/ Not Comply
<b>Training Program</b>	<ul style="list-style-type: none"> <li>- Must be completed within thirty (30) calendar days before delivery of flares</li> <li>- It must cover the operational, maintenance, loading and storage of countermeasures</li> <li>- Supplier shall address all training and training support elements to operators and maintenance personnel involved in the storage and loading of countermeasures</li> <li>- Training shall be conducted in English</li> </ul>
